HOT SHOT'S SECRET TBN BOOSTER **Concentrated Oil Fortifier**

Product Overview

TBN Booster is the only fortified engine oil stabilizer that increases total base number (TBN) and viscosity by replenishing the detergents and dispersants that are naturally lost over time. When these detergent and dispersant additives are replenished, your oil will be able to effectively neutralize the acidic conditions that corrode your engine. Longer drain intervals are possible and even further extended with the use of our Franz bypass filter kit. An oil analysis should be used to determine the proper treat rates and schedule. TBN Booster is also infused with Hot Shot Secret's Patented FR3 nano technology that increases the lubrication and wear properties of the host oil. TBN Booster is a concentrated formula that contains 100% active ingredients of a CK-4 Additive Package, a TBN Booster and Hot Shot's Secret FR3 Friction Reducer.

Applications and Uses

TBN Booster is compatible with all diesel engines and can be used in conjunction with Hot Shot Secret's Diamond Series Engine Oils or any commercially available diesel engine oil (synthetic or conventional).

When used with a Frantz bypass engine oil filter, it ensures that additives for neutralizing acid and dispersing soot are not depleted.

Benefits

- Increases total base number (TBN) up to 7 points
- Extends oil life and oil change interval
- Replenishes detergents and dispersants
- Increases viscosity and film strength
- Lowers oil consumption
- Improves aeration control
- Reduces friction and wear
- Increases lubricity
- Increases boundary layer protection
- Decreases oxidation that causes soot
- Decreases shearing
- Eliminates sludge

Directions for Use The treatment rate is variable, depending on the desired TBN increase, initial Total Base Number and the oil capacity of your engine. The following guide is included for common diesel pickup truck engines.

		TBN INCREASE						
ENGINE MODEL	CAPACITY QTS	1	2	3	4	5	6	7
CUMMINS	12	3 oz.	7 oz.	10 oz.	13 oz.	17 oz.	20 oz.	24 oz.
DURAMAX	10	3 oz.	6 oz.	8 oz.	11 oz.	14 oz.	17 oz.	20 oz.
POWER STROKE	15	4 oz.	8 oz.	12 oz.	17 oz.	21 oz.	25 oz.	30 oz.

(chart based on initial TBN of 5)

CAUTION: Do not overdose vehicles with a diesel particulate filter.

Formulated for use in diesel engines.

Packaging TBN Booster is available in:

- 1 quart bottle
- 1 quart 12-pack

Typical Properties

Property or Test	Result
Dynamic viscosity @ 0 °F, mPa·s	<500
Kinematic viscosity @ 104 °F, mm ² /s	4.3-4.6
Flash point (open cup), °F	>496
Pour point, °F	-49
Appearance	Brown liquid
