HOT SHOT'S SECRET DIESEL WINTER RESCUE **Concentrated Cold Weather Fuel Liquefier and De-gel**

Product Overview Diesel Winter Rescue is your answer for cold weather emergencies. It re-liquifies frozen fuel in your tank, lines, pump and filters. It also eliminates gel caused by waxes in your fuel.

Applications and Uses Diesel Winter Rescue is safe in all diesel engines: semi-trucks, pick-up trucks, farm and construction equipment, autos, mowers, buses, RVs, and motor homes. These include but are not limited to Ford Powerstroke, Dodge Cummins, GM Duramax, Saab, Volkswagen, and Audi.

Diesel Winter Rescue is not intended for every day usage. Use Hot Shot's Secret Diesel Winter Anti-Gel for daily cold weather conditions.

- Benefits**
- Safe in all diesel fuels
 - Liquifies frozen fuel
 - Decreases down time
 - Saves on costly towing charges
 - De-gels fuel in tank, lines, pumps and filters
 - Neutral Lubricity additive for fuel pump and injectors

Directions for Use Use Diesel Winter Rescue only for cold weather emergencies when your fuel is gelled and frozen.

To liquify frozen fuel in the tank or bulk tanks, add 32 oz. of Diesel Winter Rescue for every 40 gallons of Diesel Fuel. To De-gel and thaw frozen and plugged filters, remove your filter and drain any remaining liquid fuel. Fill your fuel filter half way with Diesel Winter Rescue and top of with Diesel fuel. Re-install your fuel filter. Start your engine and let idle until normal operating temperatures are reached.

For preventative maintenance, add Hot Shot's Secret Diesel Winter Anti-Gel at the recommended treatment rate to your fuel tank.

CAUTION: Use only in diesel fuel.

Packaging

Diesel Winter Rescue is available in:

- 32 ounce (1 quart) bottle
- 2 quart bottle (1/2 gallon)

Typical Properties

Property or Test	Result
API gravity @ 60 °F	22.3
Flash point, °F	149
